PURCHASING CASE

1. Tahapan 1 : Material Master Data.

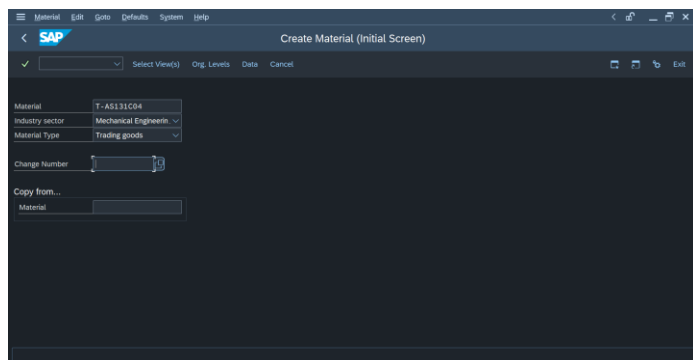

Material Master Data akan memiliki tiga material yakni; Canon EOS 5D Mark IV sebagai item 1, Nikon D5300 sebagai item 2, dan Fuji X-H1 cameras sebagai item 3. Berikut merupakan tahapan membuat material untuk tiap item.

1.1 Item 1.

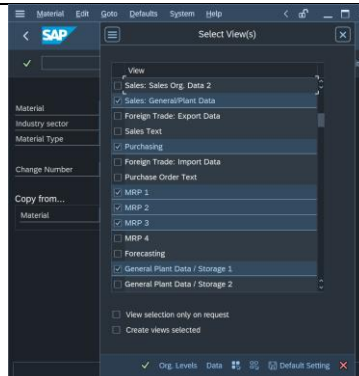

Navigasi ke sub menu create material. Pilih menu Immediately dari menu create (General) untuk membuat material sesegera mungkin.

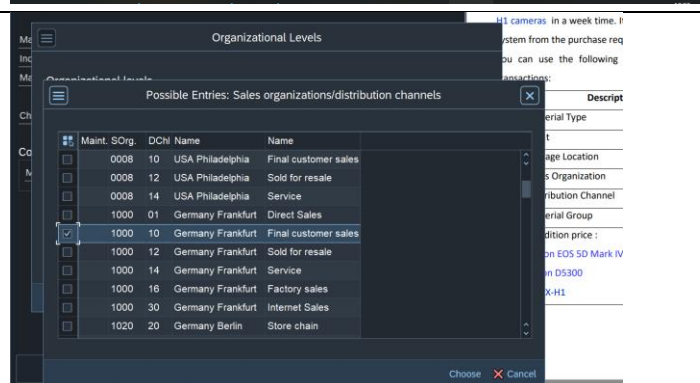

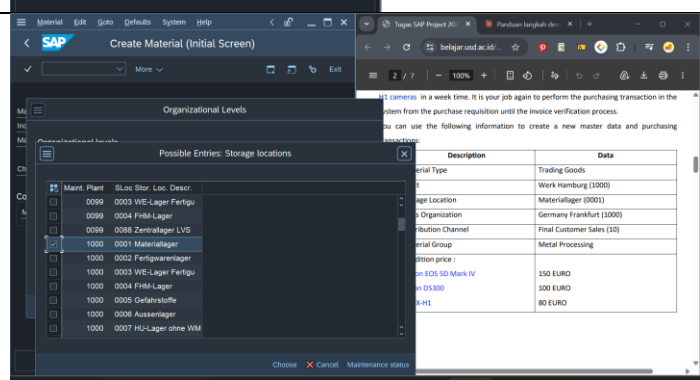

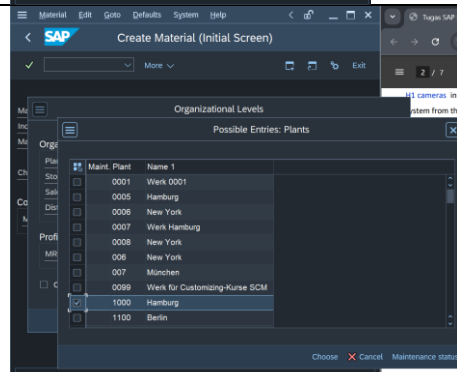

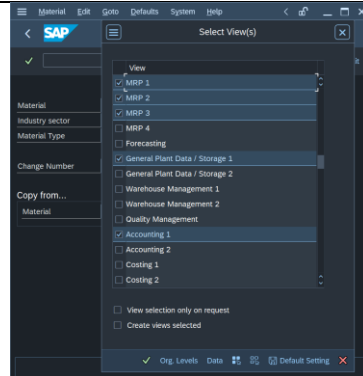

Setelah masuk pada menu Create Material maka perlu melengkapi data material yang akan dibuat. Data tersebut terdiri atas nama material, Sektor Industri, dan tipe material. Gambar di kanan merupakan contoh untuk item 1 dengan nama material T-AS131C04, sektor Mechanical Engineering, dan tipe material Trading Goods.

Setelah memastikan ketiga data yang dimasukan sudah tepat, maka perlu memilih tampilan yang akan digunakan. Tampilan yang digunakan yakni; Basic data 1, Sales : Sales org 1, Sales : General/Plant Data, Purchasing, MRP 1

Hingga 3, General Plant Data/ Storage 1, dan Accounting 1.

The screenshot displays the SAP S/4HANA Material Master - Restrictions screen. The top navigation bar includes 'Material', 'Edit', 'Goto', 'Environment', 'System', and 'Help'. The main title is 'Create New Restrictions' for 'Material Group (1) 416 Entries found'. The 'Restrictions' tab is active, showing a table with columns: 'Mat Group', 'Material Group Desc.', and 'Description 2 for the material group'. The table lists various material groups and their descriptions, such as 'Automatic Doors', 'Metal Processing', 'Steels', 'Steel sheets', 'Electronics', 'Mechanics', 'Fasteners', 'Cable', 'Mechanical fasteners', 'Miscellaneous', 'Engines', 'Pumps', 'Centrifugal Pumps', 'Motor Pumps', 'Pumps Maintenance', 'PC-Systems', and 'PC-Systems'. The 'Basic data 1' tab is also visible, showing fields for 'Material number' (Y-AS131C04) and 'Material Group' (Canon EOS SD Mark IV). The 'Basic data 2' tab is also visible, showing fields for 'Material Group' and 'Material Group Desc.'.

The screenshot displays the SAP S/4HANA 'Create Material' transaction for material T-AS131C04. The 'Restrictions' dropdown menu is open, showing various units of measure. The 'General Data' section shows the 'Base Unit of Measure' as 'PC' and the 'Old material number' as '1'. The 'Dimensions/EANs' section shows the 'Gross Weight' as 'KG'.

The screenshot displays the SAP S/4HANA 'Create Material' (T-AS131C04) transaction. The 'General Data' tab is selected, showing the following fields:

Setelah pengisian data selesai klik save.	
Perhatikan notifikasi material berhasil dibuat.	

1.2 Item 2.

Perbedaan dari item 2 dari item lainnya yakni dari nama material, nama item, amount, dan moving price yang disesuaikan sesuai dengan soal. Nama item “Nikon D5300” dengan nama material “T-	
---	--

AS132C04” amount dan moving price menjadi 100.

The screenshot shows the SAP 'Create Material (Initial Screen)' window. The 'Material' field is populated with 'T-AS132C04'. The 'Industry sector' is set to 'Mechanical Engineering' and the 'Material Type' is 'Trading goods'. The 'Change Number' field is empty. The 'Copy from...' section is also empty. At the bottom, a status bar indicates 'Material T-AS132C04 created'.

1.3 Item 3.

Perbedaan dari item 2 dari item lainnya yakni dari nama material, nama item, amount, tanggal pengiriman dan moving price yang disesuaikan sesuai dengan soal. Nama item “Fuji X-H1” dengan nama material “T-AS133C04” amount dan moving price menjadi 80, serta tanggal pengiriman yang menjadi 7 hari.

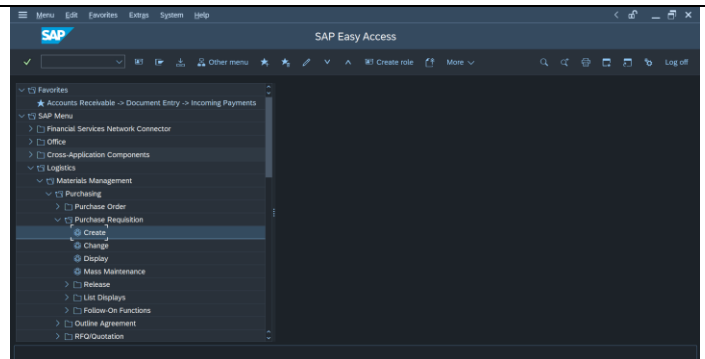

The screenshot shows the SAP 'Create Material (Initial Screen)' window. The 'Material' field is populated with 'T-AS133C04'. The 'Industry sector' is set to 'Mechanical Engineering' and the 'Material Type' is 'Trading goods'. The 'Change Number' field is empty. The 'Copy from...' section is also empty. At the bottom, a status bar indicates 'Material T-AS133C04 created'.

This screenshot shows the same SAP 'Create Material (Initial Screen)' window as the previous one, but with additional options visible at the top right: 'Select View(s)', 'Org. Levels', 'Data', and 'Cancel'. The material name 'T-AS133C04' and other fields remain the same. The status bar at the bottom still indicates 'Material T-AS133C04 created'.

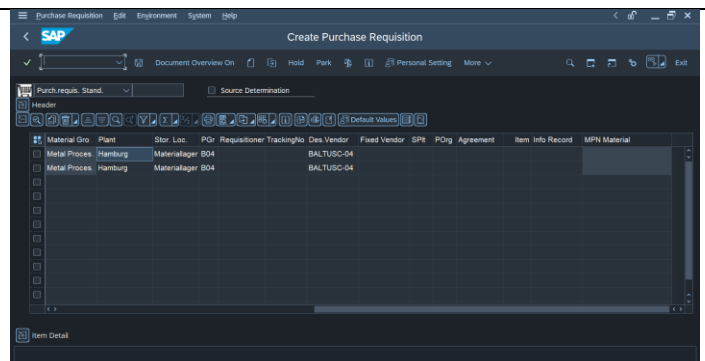

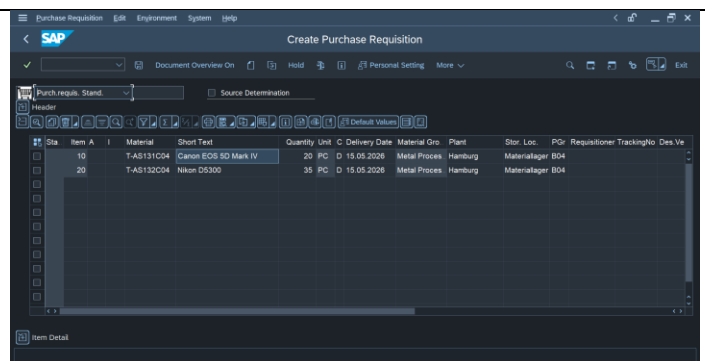

2. Tahapan 2 : Purchase Requisition

2.1 Item 1 & item 2 :

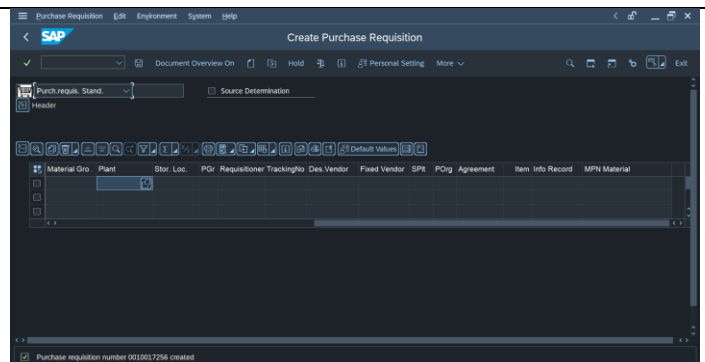

Navigasi ke sub menu create dari purchase requisition.

Jalankan unfreeze coloumn dengan klik kanan.

Setelah klik save maka akan muncul notifikasi yang menunjukan purchase requisition dengan nomor 0010017256 berhasil dibuat.

2.2 Item 3 :

Navigasi ke bagian create purchase requisition dan klik save setelah memastikan data belanja sudah sesuai.

The screenshot shows the SAP 'Create Purchase Requisition' interface. The 'Item' tab is active, displaying details for item 30. The 'Material Data' section shows the material 'T-AG133CD4' with a short text 'Fuj X-H1'. The 'Quantities/Dates' section shows a quantity of 40, a delivery date of 22.05.2026, and a request date of 01.05.2026. The 'Status' section shows a status of 'PC' and a release date of 13.05.2026. The 'Source of Supply' section shows a source of supply of 'Metal Process' and a plant of 'Hamburg'. The 'Contact Person' section shows a contact person of 'Materiallager BD4'. The 'Delivery Address' section shows a delivery address of 'SAL712'.

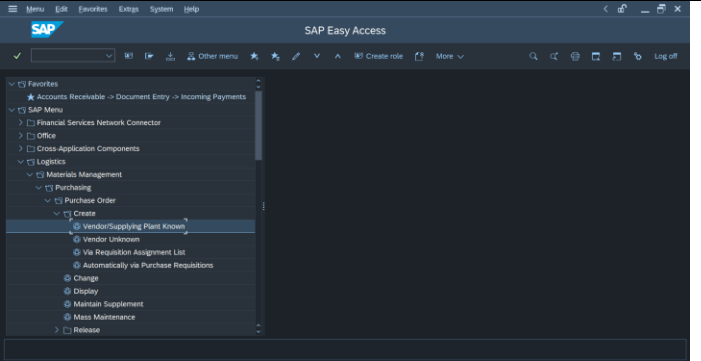

Catat nomor dokumen purchase requisition 0010017257.

The screenshot shows the SAP 'Create Purchase Requisition' interface. The 'Purchase requisition number 0010017257 created' message is displayed at the bottom of the screen.

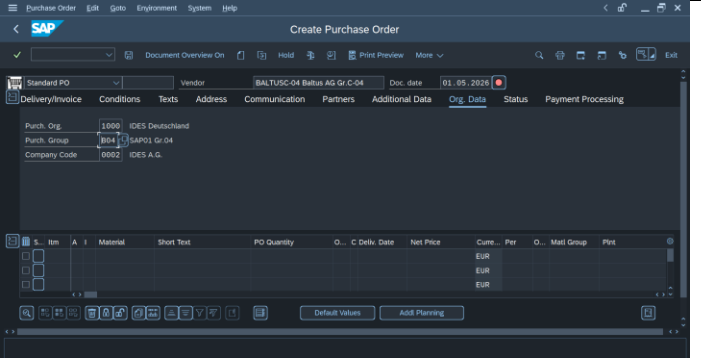

3. Tahapan 3 : Purchase Order

3.1 Item 1 & item 2.

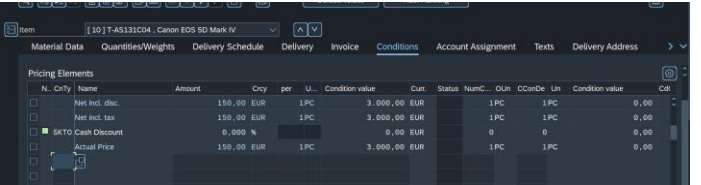

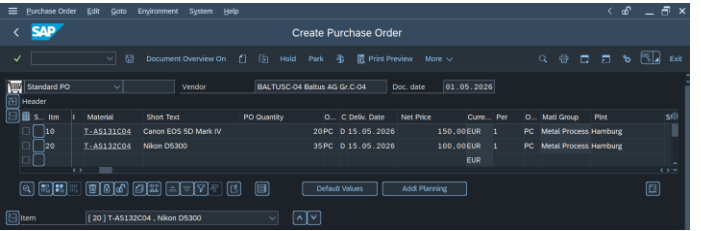

Navigasi ke sub menu vendor/ supplying plant known dari menu purchase order.

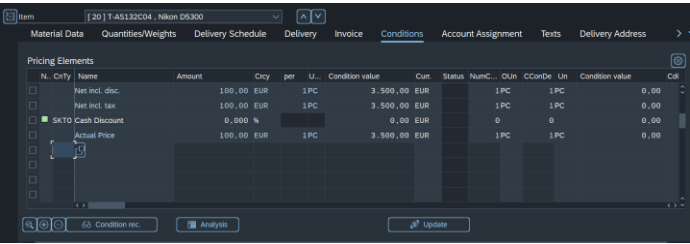

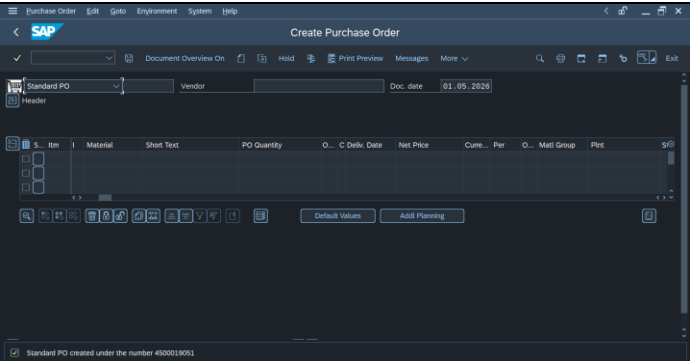

Masukan data perusahaan dan vendor, kemudian klik enter.

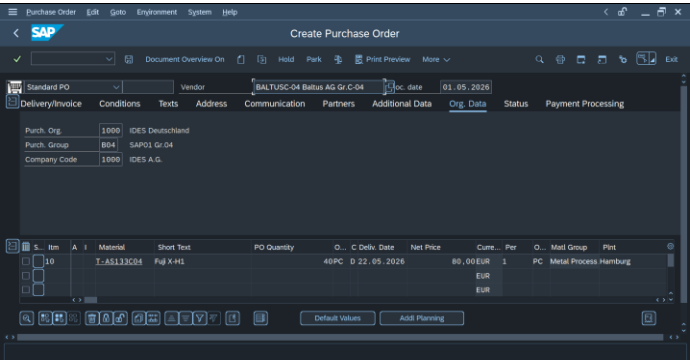

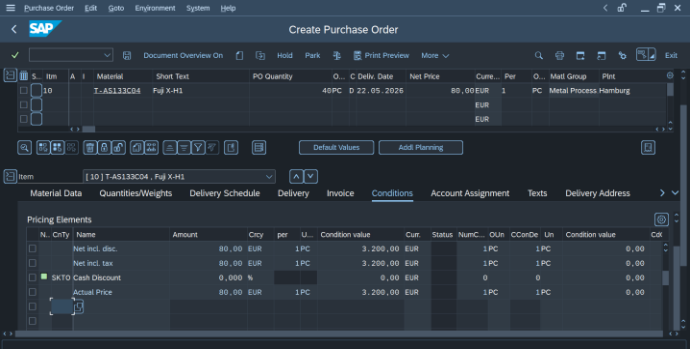

Barang yang telah dibuat permintaan belanja sebelumnya akan muncul. Pastikan data telah sesuai dan klik save.

	
Catat nomor dokumen Purchase order yang telah dibuat 4500019051.	

3.2 Item 3 .

Masukan data perusahaan dan vendor, kemudian klik enter.	
Barang yang telah dibuat permintaan belanja sebelumnya akan muncul. Pastikan data telah sesuai dan klik save.	

Catat nomor dokumen
Purchase order yang telah
dibuat 4500019052.

Standard PO created under the number 4500019052

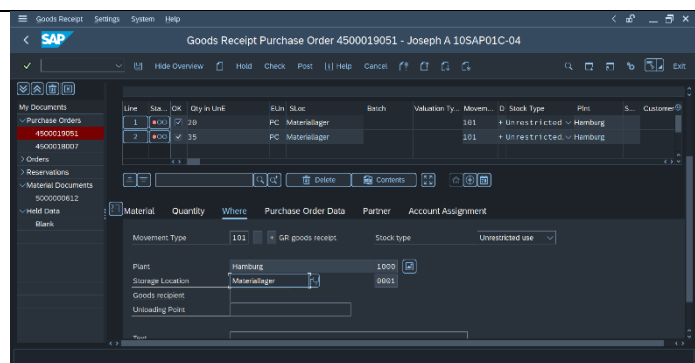

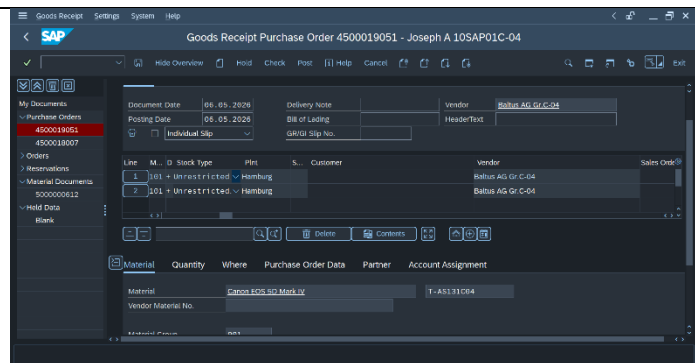

4 Tahap 4 : Goods Receipt.

4.1 Item 1 & item 2 :

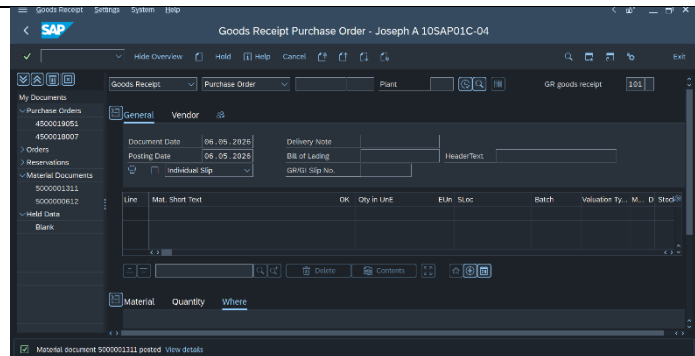

Navigasi ke sub menu GR for purchase order(MIGO) pada menu Goods Receipt.

Process pemostingan Goods Receipt untuk dua item pertama. Masukan Purchase order, pastikan dan lengkapi data kemudian klik post.

Catat nomor dokumen Goods Receipt yang telah dibuat 5000001311.

4.2 Item 3 :

Proses pemostingan Goods Receipt dari item 3 yakni kamera Fuji X-H1 sejumlah 40 buah. Centang pada kolom OK.

Masukan storage location.

Kemudian melakukan posting yang mendapatkan Dokumen material 5000001333.

5 Tahap 5 : Invoice Verification.

5.1 Item 1 & Item 2 :

Navigasi ke view Enter incoming invoice. Kemudian lengkapi data seperti invoice date amount dan reference.

Centang kedua item yang akan diproses pastikan data sudah sesuai. Kedua data ini adalah untuk Canon EOS 5D dan Nikon D5300.

Setelah klik save, pastikan berhasil dibuat dengan cek nomor dokumen. Catat nomor dokumen 5105610023.

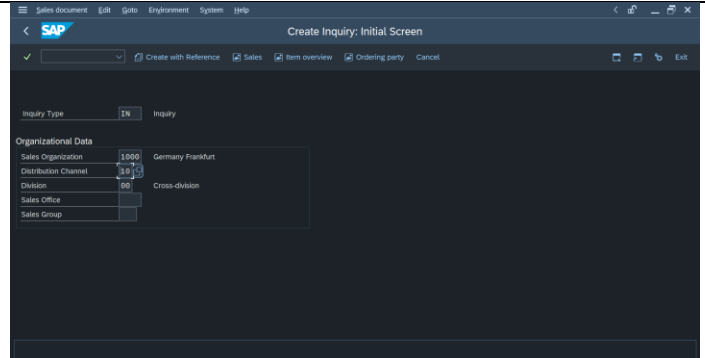

SALES DISTRIBUTION CASE

Pada kasus sales distribution berfokus pada 3 material number yakni T-AS131C04 untuk Canon EOS 5D Mark IV dengan kuantitas 10, T-AS132C04 untuk Nikon D5300 dengan kuantitas 15, dan T-AS133C04 untuk Fuji X-H1 dengan kuantitas 20.

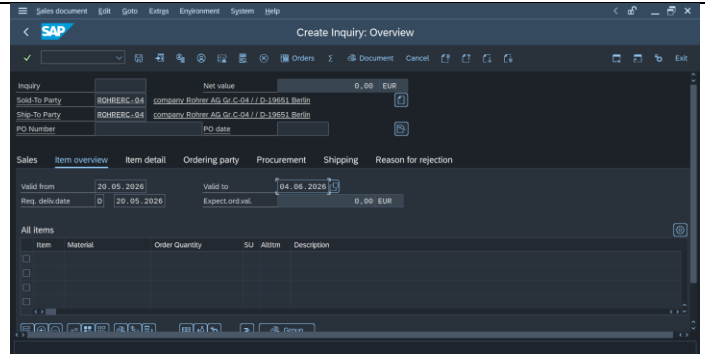

1. Inquiry Item Step.

Masukan VA11 pada search bar, dan asuk pada initial screen create Inquiry. Kemudian masukan data inquiry type (IN), sales org (1000), dist, Channel (10), dan division (00). Kemudian klik enter.

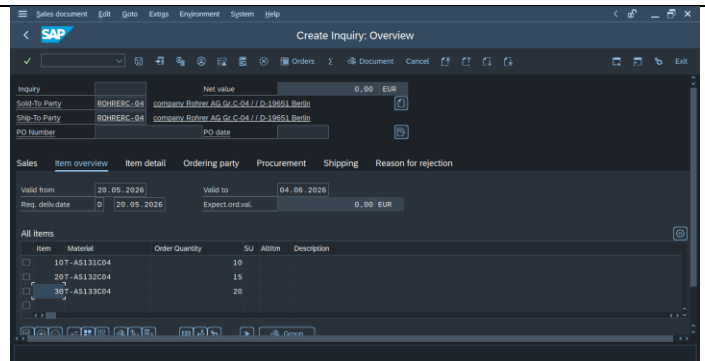

The screenshot shows the 'Create Inquiry: Initial Screen' in SAP. The 'Inquiry Type' is set to 'IN'. Under 'Organizational Data', the following values are entered: Sales Organization (1000), Distribution Channel (10), Division (00), and Sales Office (Cross-division). The 'Sales Group' is also visible.

Masukan data user ID

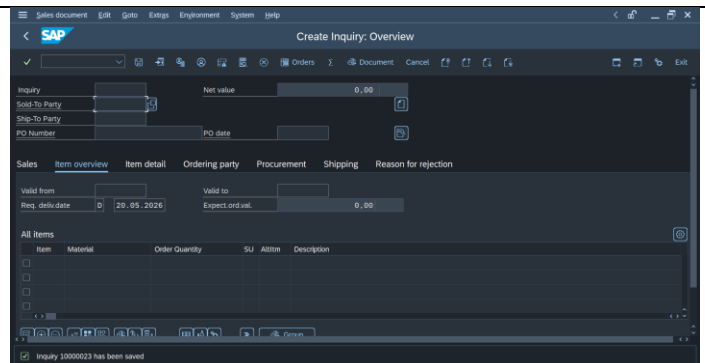

The screenshot shows the 'Create Inquiry: Overview' screen. The 'Inquiry' field is set to 'VA11'. The 'Net value' is 0.00 EUR. The 'Valid from' date is 20.05.2026, and the 'Valid to' date is 04.06.2026. The 'Req. deliv. date' is 20.05.2026, and the 'Expect. ord. val.' is 0.00 EUR. The 'All Items' table is empty.

Masukan item, material, dan order quantity. Kemudian klik save.

The screenshot shows the 'Create Inquiry: Overview' screen with the 'All Items' table populated. The table has columns for Item, Material, Order Quantity, SU, Altstn, and Description. The items are: 10 T-AS131C04 (Quantity 10), 20 T-AS132C04 (Quantity 15), and 30 T-AS133C04 (Quantity 20).

Perhatikan notifikasi bahwa inquiry berhasil dibuat. Inquiry number 10000023.

The screenshot shows the 'Create Inquiry: Overview' screen with the 'All Items' table populated. The table has columns for Item, Material, Order Quantity, SU, Altstn, and Description. The items are: 10 T-AS131C04 (Quantity 10), 20 T-AS132C04 (Quantity 15), and 30 T-AS133C04 (Quantity 20). A notification at the bottom states: 'Inquiry 10000023 has been saved'.

2. Quotation System

Masukan VA21 pada search bar dan navigasi menuju initial screen create quotation. Kemudian lengkapi data quotation (QT) dan organizational data seperti sebelumnya.

The screenshot shows the 'Create Quotation: Initial Screen' in SAP. The 'Quotation Type' is set to 'QT'. Under 'Organizational Data', the following values are entered: Sales Organization: 1000, Germany Frankfurt; Distribution Channel: 10, Final customer sales; Division: 00, Cross-division; Sales Office: ; Sales Group: .

Klik menu “Create with reference” kemudian masukan inquiry document number. Kemudian klik copy.

The screenshot shows the 'Create with Reference' dialog box. The 'Inquiry' tab is selected, and the 'Inquiry' field contains the number '100000923'. The 'Requested date' is set to '20.09.2026'. The 'Search Criteria' section includes fields for 'Pur. Order', 'Sold-to party', and 'WBS Element', all of which are empty. A 'Search' button is at the bottom.

Lengkapi data seperti tanggal dokumen valid, kemudian klik post.

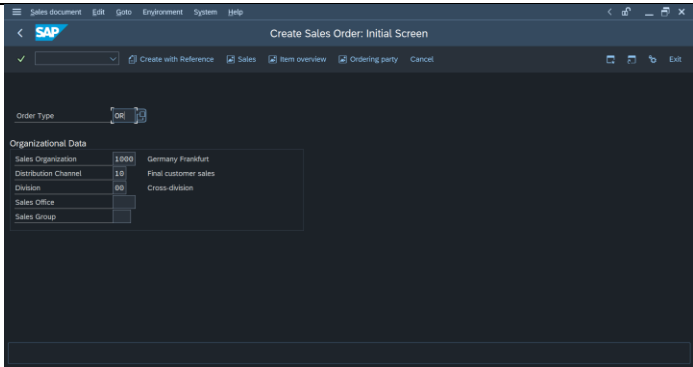

The screenshot shows the 'Change Quotation 20000098: Overview' screen. The 'Quotation' number is '20000098' and the 'Net value' is '4.600,00 EUR'. The 'Valid from' date is '20.09.2026' and the 'Valid to' date is '04.06.2026'. The 'Req. date' is '20.09.2026' and the 'Expected net value' is '0,00 EUR'. The 'All Items' table lists three items: 10 T-AS131C04 (10PC, Canon EOS 5D Mark IV), 20 T-AS132C04 (15PC, Nikon D5300), and 30 T-AS133C04 (20PC, Fuj X-H1).

Pastikan notifikasi Quotation berhasil disimpandengan terdapat nomor dokumen 20000098.

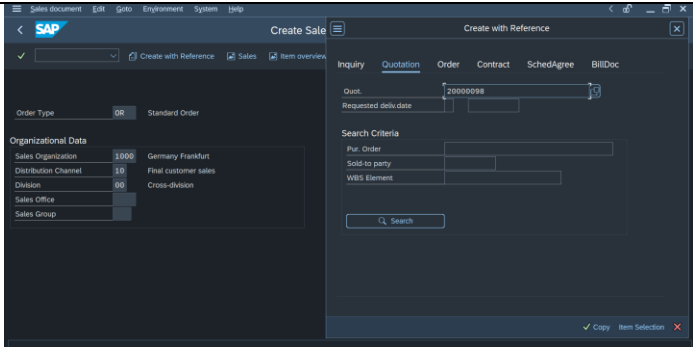

The screenshot shows the 'Change Quotation: Initial Screen' in SAP. The 'Quotation' field contains the number '20000098'. The 'Search Criteria' section includes fields for 'Purchase Order No.', 'Sold-to party', 'WBS Element', and 'Material', all of which are empty. A 'Search' button is at the bottom. A message at the bottom states: 'Quotation 20000098 has been saved'.

3. Sales Order.

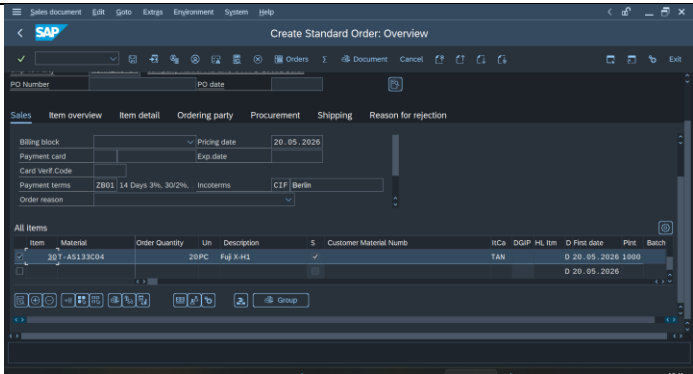

Masukan VA01 pada search bar yang akan masuk pada initial screen dari Create Sales Order.

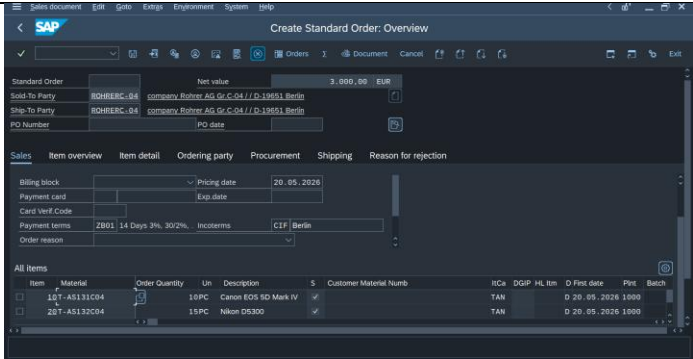

Klik menu create with reference dan masukan dokumen quotation dan delivery date. Kemudian klik copy.

Lakukan penghapusan item Fuji X-H1 karena pelanggan tidak memesan item tersebut.

Klik Save.

Pastikan isi dokumen sudah lengkap dengan mengisi gross dan net weight. Kemudian klik save.

Perhatikan notifikasi standard order 16583 berhasil tersimpan.

4. Delivery Order.

Cari VL01N pada search yang akan mengarahkan pada tampilan Create Outbound Delivery with Order Reference.

Lengkapi data shipping point dan Sales order data. Kemudian klik enter.

Setelah memastikan material yang diinginkan pelanggan sesuai, klik post.

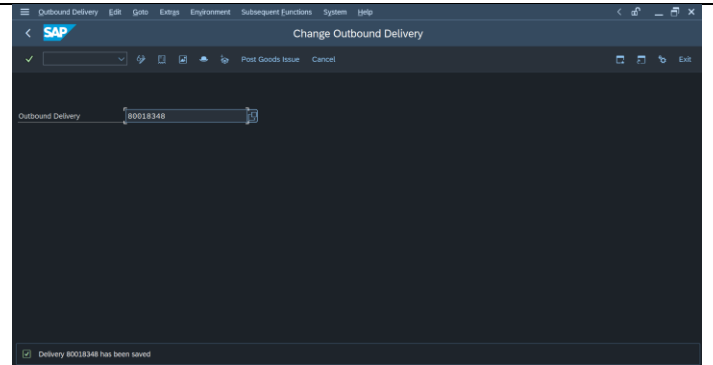

Pastikan notifikasi Delivery dengan nomor dokumen 80018348 berhasil dibuat.

5. Goods Issue.

Cari VL02N pada search bar yang menuju pada change outbound Delivery. Kemudian klik post Goods Issue.

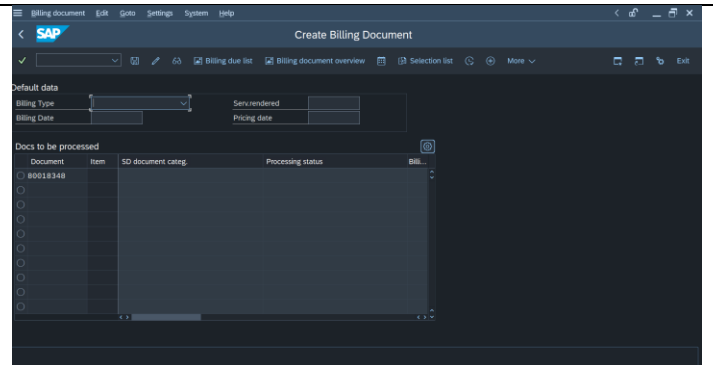

Pastikan data telah sesuai.

Pastikan notifikasi delivery dengan nomor dokumen 80018348 berhasil disimpan.

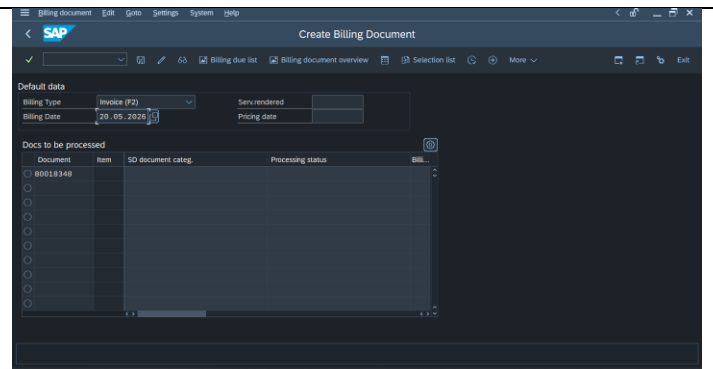

6. Invoice / Billing.

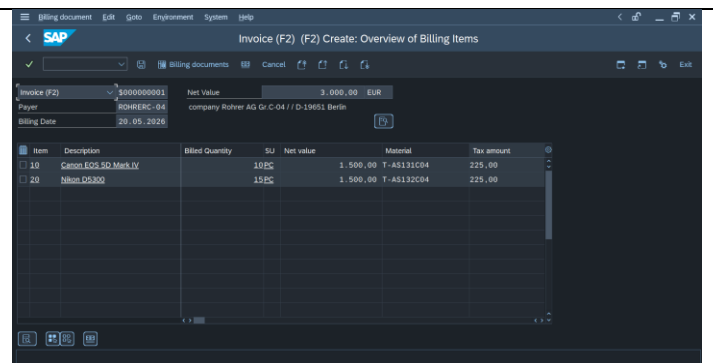

Cari VF01 pada search bar yang akan mengarahkan pada tampilan

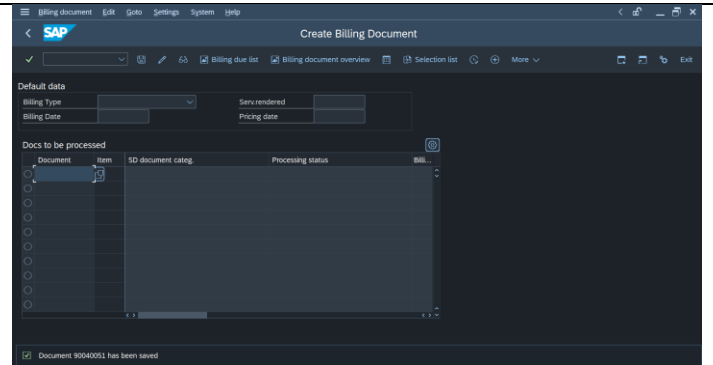

Masukan billing type menjadi Invoice (F2) dan billing date menjadi tanggal hari ini.

Setelah klik enter maka akan masuk pada tampilan overview dari invoice.

Setelah klik simpan maka akan muncul notifikasi dokumen dengan nomor 90040051 berhasil disimpan.

PRODUCTION CASE

Seorang pelanggan mengirim fax untuk membuat pembelian 40 material pipa yang harus diantarkan dalam jangka waktu 1 bulan.

1. Sales Order.

Navigasi ke view sales order dengan mencari **VA01** pada search bar. Kemudian masukan data tipe order (OR), sales org (1000), distribution channel (10), division (00), dan klik enter setelah memastikan data sesuai.

The screenshot shows the 'Create Sales Order: Initial Screen' in SAP. The 'Order Type' is set to 'OR'. Under 'Organizational Data', the following values are entered: Sales Organization: 1000, Distribution Channel: 10, Division: 00, Sales Office: (blank), and Sales Group: (blank).

Masukan data customer ROHRERC-04, deliv.Plant (1000, Hamburg), Deliv. Date (N + 30 hari), data material (R-F104), quantity(40), satuan pc, deskripsi pumps. Setelah memastikan data sesuai, Klik save.

The screenshot shows the 'Create Standard Order: Overview' screen. The 'Sold-To Party' is ROHRERC-04. The 'Ship-To Party' is also ROHRERC-04. The 'Deliv. Plant' is 1000 Hamburg. The 'Delivery Date' is set to 30.06.2026. The 'Material' is R-F104, with a quantity of 40 PC. The 'Description' is Pumps. The 'Unit of Measure' is PC. The 'Total Weight' is 11.200 KG. The 'Volume' is 0 M3. The 'Pricing date' is 31.05.2026. The 'Exp. date' is (blank). The 'Payment terms' are ZB01 14 Days 3%, 30/2%, Incoterms. The 'Incoterms' are CIF Berlin. The 'Order reason' is (blank).

The screenshot shows the 'Create Standard Order: Overview' screen, focusing on the 'All Items' table. The table has columns: Item, Material, Order Quantity, Un, Description, S, Customer Material Number, ITCa, DGIP, HL, Item, D First date, Pric, and Batch. The first row shows Item 108, Material R-F104, Order Quantity 40, Un PC, Description Pumps, S (blank), Customer Material Number (blank), ITCa TAN, DGIP (blank), HL (blank), Item (blank), D First date 30.06.2026, Pric 1000, and Batch (blank).

Catat Nomor Standard Order (16844)

The screenshot shows the 'Create Standard Order: Overview' screen. The 'Standard Order' number is 16844. The 'Net value' is (blank). The 'Sold-To Party' is ROHRERC-04. The 'Ship-To Party' is ROHRERC-04. The 'PO Number' is (blank). The 'PO date' is (blank). The 'Sales' tab is selected. The 'All Items' table shows the same data as the previous screenshot. At the bottom, a message states: 'Standard Order 16844 has been saved'.

2. Stock Checking.

Navigasi ke view stock overview dengan perintah MMBE. Masukkan data material dan plant. Kemudian klik execute atau F8.

The screenshot shows the SAP Stock Overview screen. The 'Database selections' section includes fields for Material (R-FC104), Plant (1000), Storage location, and Batch. The 'Stock Type Selection' section has checkboxes for 'Also Select Special Stocks' and 'Also Select Stock Commitments'. The 'List Display' section includes 'Special Stock Indicator' (set to 1), 'Display version' (set to 1), 'Display Unit of Measure', and checkboxes for 'No Zero Stock Lines' and 'Decimal Place as per Unit'. The 'Selection of Display Levels' section is at the bottom.

The screenshot shows the SAP Stock Overview: Basic List screen. The 'Selection' section includes Material (R-FC104), Material Type (FERT), and Unit of Measure (PC). The 'Stock Overview' table displays the following data:

Client/Company Code/Plant/Storage Location/Batch/Special Stock	Unrestricted use	Qual. Inspection	Reserved	Rpt reservation	On-Order Stock	Consgt ordered	St...
Full	50.000						
1000 CHES A.G.	50.000						
1000 Hamburg	50.000						
0002 Meersburger	45.000						
0002 Fertigenlager	10.000						

3. Planned Order.

Navigasi ke view single-item, multi-level dengan memasukkan “MD02” pada search bar. Kemudian isikan data dari material hingga planning mode. Setelahnya klik enter.

The screenshot shows the SAP Single-Item, Multi-Level screen. The 'Material' field is set to R-FC104, 'MRP Area' to 1000, and 'Plant' to 1000. The 'Scope of Planning' section includes 'Product group'. The 'MRP Control Parameters' section includes 'Processing Key' (NETCH), 'Create Purchase Req.' (2), 'SA Deliv. Sched. Lines' (3), 'Create MRP List' (1), and 'Planning mode' (3). The 'Scheduling' section includes 'Scheduling' (1). The 'Process Control Parameters' section includes 'Also plan unchanged components'.

Status yang tertera “No procurement proposals change” Maka perlu pembuatan planned order manual.

The screenshot shows the SAP Single-Item, Multi-Level screen displaying statistics. The 'Statistics' section includes 'Materials planned' (1), 'Materials with New Exceptions' (1), and 'Materials with Termination MRP List'. The 'Parameters' section includes 'MRP Area' (1000), 'Plant' (1000), 'Processing Key' (NETCH), 'Create Purchase Requisition' (2), 'SA Schedule Line' (3), 'Create MRP List' (1), 'Planning Mode' (3), and 'Scheduling' (1). The 'Database Statistics' section includes 'No procurement proposals changed'. The 'Runtime Statistics' section is at the bottom.

4. Planned Order Manual.

Navigasi ke menu create planned order dengan mencari MD11 pada search bar. Lengkapi data dan klik enter.

The screenshot shows the 'Create Planned Order: Initial Screen' in SAP. The 'Planned Order Profile' is set to 'LA'. The 'Reference' section has 'Planned Order' entered. The screen is mostly empty with some standard SAP navigation buttons at the top.

Setelah klik enter lengkapi data material, plant, stock req, waktu, dan storage location. Setelah memastikan data sesuai, klik save. Simpan Planned Order Number (39223) .

The screenshot shows the 'Create Planned Order: Stock order' screen. The 'Stock order' is set to 'Standard in-house produ'. The 'Material' is 'R-FC184' and 'MSP Area' is '1000'. The 'Header' tab is active, showing 'Quantities' with 'Order quantity' set to '40'. The 'Dates/Times' section shows 'Basic Dates' with 'End' as '31.05.2026'. The 'Other Data' section shows 'Production Plant' as '1000' and 'Storage Location' as '0002'. The 'Firming' section has 'Planned Order' and 'Components' checkboxes.

The screenshot shows the 'Create Planned Order: Initial Screen' again. At the bottom, a message states 'Planned order 39223 will be created'. The 'Planned Order' field is now populated with '39223'.

5. Convert Planned Order to Production Order.

Navigasi ke view production order create dengan masukan “CO40” pada search bar. Planned Order akan secara otomatis termuat, pastikan sesuai dan klik enter.

The screenshot shows the 'Production Order Create: Initial Screen' in SAP. The 'Planned Order' field is populated with '39223'. The 'Order Type' is set to 'CO40'. The 'Order' field is empty. The 'Partial Conv.' checkbox is checked.

Setelah klik enter, pastikan kembali data order sudah sesuai. Kemudian klik ikon bendera hijau untuk release order.

Release carried out

Setelah berhasil release, klik save dan catat order number (60004908).

Production Order Create: Initial Screen

Planned Order: 39223

Order Type: PP01

Order:

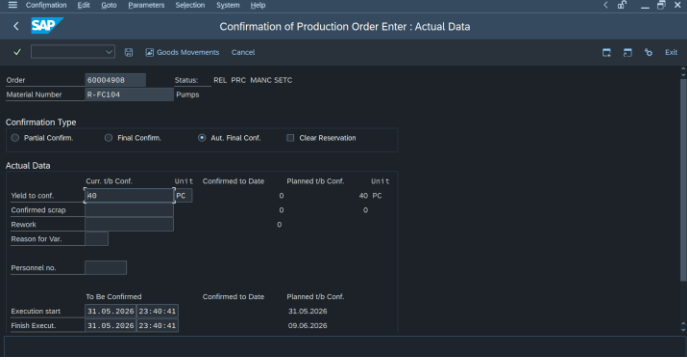

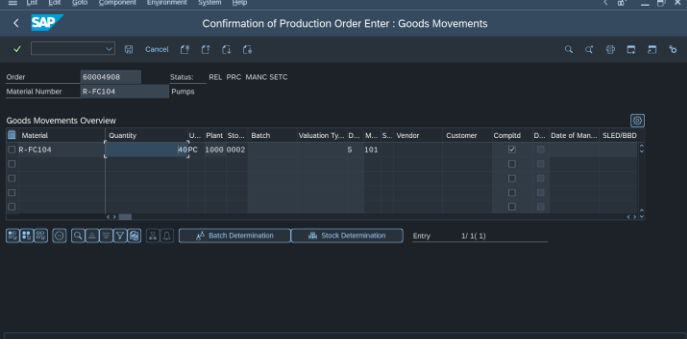

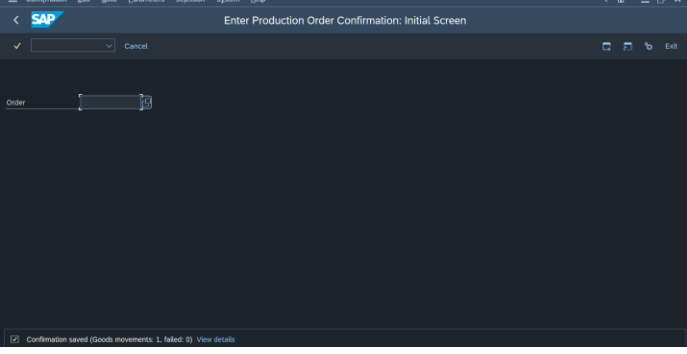

Order number 60004908 saved

6. Confirm Production.

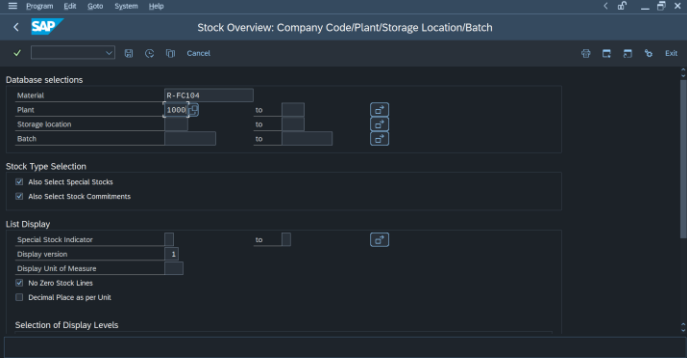

Navigasi ke view enter confirm production dengan masukan "CO15" pada search bar, dan masukan nomor dokumen order.

Enter Production Order Confirmation: Initial Screen

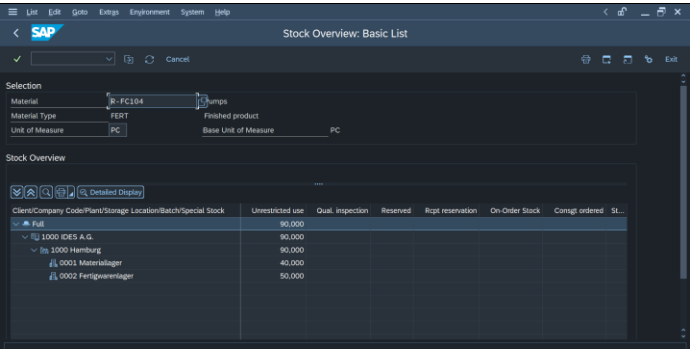

Order: 60004908

Setelah klik enter, pastikan semua data sudah sesuai, dan klik Goods Movement.	
Setelah memastikan kembali data sudah sesuai, klik save.	
Notifikasi berhasil.	

7. Check Stock.

Navigasi kembali ke view stock overview dengan cari “MMBE” pada search bar, masukan data material dan plant, kemudian klik execute.	
--	--

Stock pada 0002 berhasil bertambah.

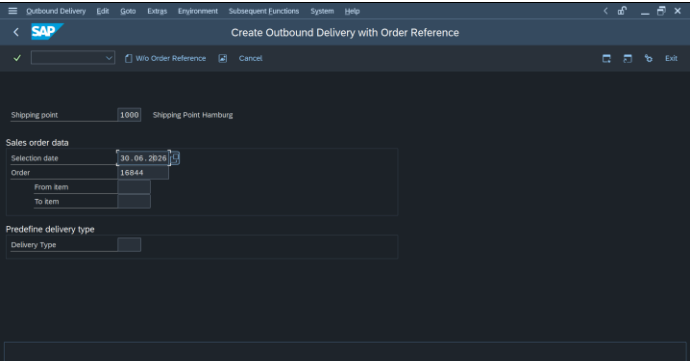

The screenshot shows the 'Stock Overview: Basic List' in SAP. The 'Selection' section at the top shows 'Material' as 'B-FC184' and 'Material Type' as 'FERT'. The 'Stock Overview' table below lists stock levels for various locations. The 'On-Order Stock' column shows a value of 50,000 for the '0002 Fertigwarenlager' location.

Client/Company Code/Plant/Storage Location/Batch/Special Stock	Unrestricted Use	Qual. Inspection	Reserved	Rpt reservation	On-Order Stock	Contri ordered St...
Full	90,000					
1000 IDES A.G.	90,000					
1000 Hamburg	90,000					
0001 Materiallager	40,000					
0002 Fertigwarenlager	50,000					

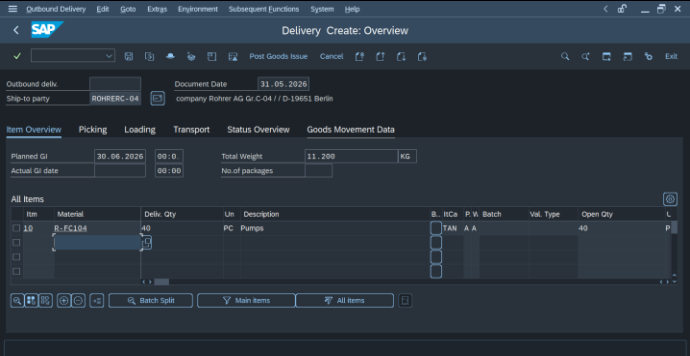

8. Delivery.

Navigasi ke view create Outbound Delivery, masukan data shipping (1000), selection date, dan order (16844). Kemudian klik enter.

The screenshot shows the 'Create Outbound Delivery with Order Reference' screen. The 'Shipping point' is set to '1000' (Shipping Point Hamburg). The 'Sales order data' section shows 'Selection date' as '30.06.2026' and 'Order' as '16844'. The 'Predefine delivery type' section is empty.

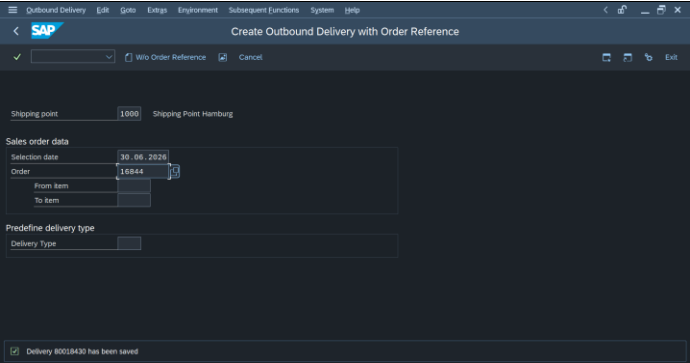

Pastikan data order sudah sesuai dan klik save.

The screenshot shows the 'Delivery Create: Overview' screen. The 'Outbound deliv.' is '80018430' and the 'Document Date' is '31.05.2026'. The 'Ship-to party' is 'ROHREC-04'. The 'Item Overview' table below lists the items to be delivered.

Item	Material	Deliv. Qty	UoM	Description	B. HCa	P. W. Batch	Val. Type	Open Qty
10	B-FC184	40	PC	Pumps	TAN	A A		40

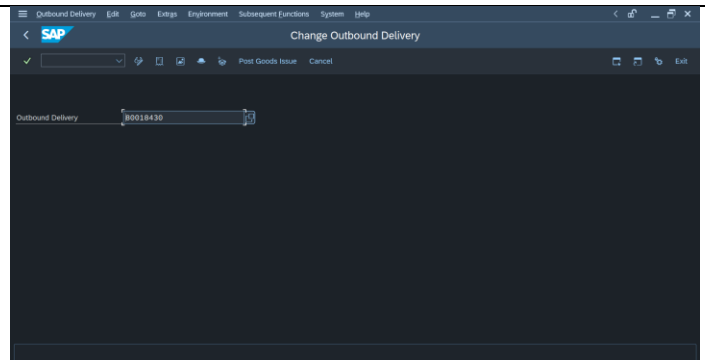

Catat nomor delivery (80018430)

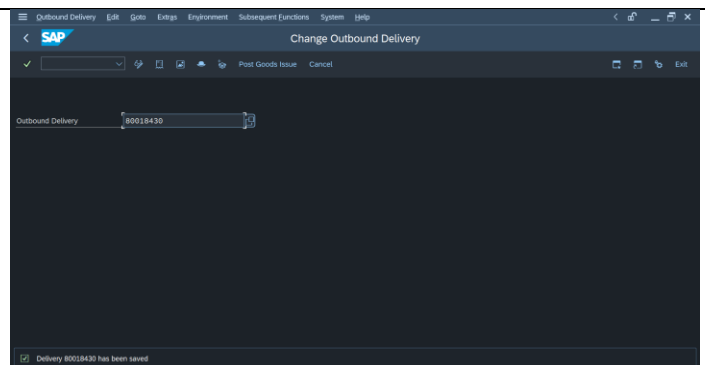

The screenshot shows the 'Create Outbound Delivery with Order Reference' screen. The 'Shipping point' is '1000' (Shipping Point Hamburg). The 'Sales order data' section shows 'Selection date' as '30.06.2026' and 'Order' as '16844'. The 'Predefine delivery type' section is empty. A message at the bottom states 'Delivery 80018430 has been saved'.

9. Goods Issue.

Navigasi ke view change outbound delivery dengan masukan “VL02N” pada search bar. Nomor delivery akan otomatis terisi pada outbound delivery field.

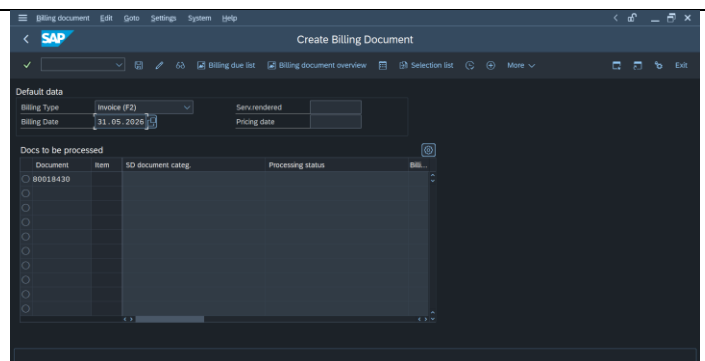

Klik Post Good Issue dan catat nomor dokumen good issue (80018430).

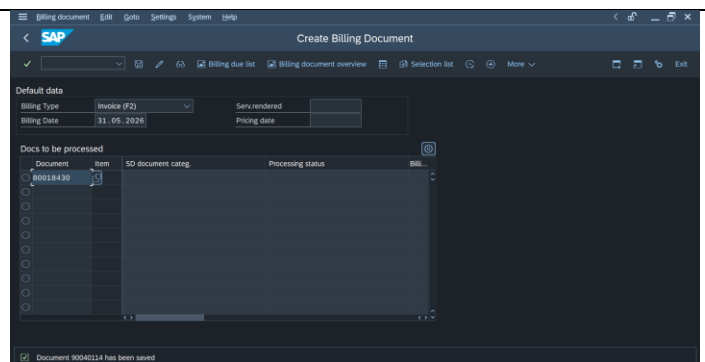

10. Billing.

Navigasi menuju view create billing document dengan memasukan “VF01” pada search bar. Lengkapi data billing type dan billing date, kemudian klik save.

Catat nomor dokumen Billing 90040114

FINANCE ACCOUNTING CASE

Pada case Finance Accounting Case, akan dilakukan pemrosesan pembayaran dari pelanggan dan pemrosesan pembayaran ke vendor. Terdapat data financial statement yang harus diperhatikan.

1. Financial Statement Sebelum Transaksi.

Masukan S_ALR_87012284 pada search bar untuk menuju view financial statement dan lengkapi data company code dan data pada further selection . Kemudian klik execute.
